**Description:** The involved vehicles have airbag systems where an open circuit could be created over time. If this were to occur, the airbag warning light will illuminate and the side/curtain shield airbags and/or front airbags, may not deploy. Airbag non-deployment could increase the risk of injury to the occupants in the event of a crash.

### Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2015 edition, 8% of the 254 million registered vehicles in the U.S. were involved in an accident in 2013. Over 74% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 8/6/18 at 4:44:38 PM (CDT). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

### Washington Damage Reports:

- Provide an estimate of the extent of damage only if the accident resulted in fire damage.
- Are required if the estimated damage exceeds \$700

### First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

### Lexus Recall / Service Campaign

Toyota Motor Sales, USA, Inc. provides CARFAX with recall and service campaign information for vehicles originally marketed or sold in the United States of America, its territories, and Mexico. Only open safety or emissions recalls and service campaigns where the remedy has not been completed, will be listed. While Toyota provides data updates to CARFAX on a regular basis, this report may not include very recent activity. For the most current information on recall and campaign activity for any Lexus vehicle, you must go to <http://toyota.com/recall>.

### Manufacturer Recall

Automobile manufacturers issue recall notices to inform owners of car defects that have come to the manufacturer's attention. Recalls also suggest improvements that can be made to improve the safety of a particular vehicle. Most manufacturer recalls can be repaired at no cost to you.

### Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

### Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.
